prosodic phonology by marina nespor and irene vogel is now available again again nespor vogel 1986 is a citation classic even after twenty years it is still recognized as the standard resource on prosodic phonology this groundbreaking work introduces all of the prosodic constituents syllable foot word clitic group phonological phrase intonational phrase and utterance and provides evidence for each one from numerous languages prosodic phonology also includes a chapter in which experimental psycholinguistic data support the proposed hierarchy a perceptual study provides evidence that prosodic constituent structure not syntactic constituent structure predicts whether listeners are able to disambiguate different types of ambiguous sentences a chapter on the phonology of poetic meter examines portions of dante s

divine comedy it is demonstrated that the constituents proposed for spoken language also make interesting predictions about literary metrical patterns prosodic phonology is an important reference not only for phonologists but for all linguists interested in the issue of interfaces among the components of grammar it is also a basic resource for psycholinguists and cognitive scientists working on linguistic perception and language acquisition

the purpose of the is study is 1 to trace the evolution of the prosodic structure of french from lsl over of to the modern period in terms of a nexus cursus typology and 2 to describe the phonotactic structures of of and mf and to outline their diachronic relationship through analysis based on a phonotactic definition of the syllable although two distinct divisions of this study are intended the interrelation of prosodic and phonotactic structures is set forth as a necessary working hypothesis and it will be demonstrated that the establishment of phonological units made on the basis of a prosodic typology must precede a photactic description

this book illustrates an approach to prosodic typology through descriptions of the intonation and the prosodic structure of thirteen typologically different languages based on the same theoretical framework the autosegmental metrical model of intonational phonology and the transcription system of prosody known as tones and break indices tobi it is the first book introducing the history and principles of this system and it covers european languages asian languages an australian aboriginal language and an american indian language the book shows how languages and dialects are similar to or different from other languages or dialect varieties in terms of the prosodic structure the intonational categories and their realizations this is the first book on intonation which is accompanied by a companion website hosting the sound files mentioned in each chapter

prosodic features and prosodic structure presents an overall view of the nature of prosodic features of language accent stress rhythm tone pitch and intonation and shows how these connect to sound systems and meaning it is a work of great scholarship and learning expressed in way that will be accessible to all linguists from advanced undergraduates to postdoctoral researchers the last substantial overview was published over 20 years ago since then the subject has been transformed by linked advances in phonological and phonetic theory and accoustic technology this book will interest phonologists phoneticians and researchers in related applied fields such as speech pathology and speech synthesis

the book series beihefte zur zeitschrift für romanische philologie founded by gustav grüber in 1905 is among the most renowned publications in romance studies it covers the entire field of romance linguistics including the national languages as well as the lesser studied romance languages the editors welcome submissions of high quality monographs and collected volumes on all areas of linguistic research on medieval literature and on textual criticism the publication languages of the series are french spanish portuguese italian and romanian as well as german and english each collected volume should be as uniform as possible in its contents and in the choice of languages

this text illustrates an approach to prosodic typology through descriptions of the intonation and the prosodic structure of 13 typologically different languages based on the same theoretical framework and the transcription system of prosody known as tones and break indices tobi

an introduction to the the range of current theoretical approaches to the prosody of spoken utterances with practical applications of those theories prosody is an extremely dynamic field with a rapid pace of theoretical development and a steady expansion of its influence beyond linguistics into such areas as cognitive psychology neuroscience computer science speech technology and even the medical profession this book provides a set of concise and accessible introductions to each major theoretical approach to prosody describing its structure and implementation and its central goals and assumptions as well as its strengths and weaknesses most surveys of basic questions in prosody are written from the perspective of a single theoretical framework this volume offers the only summary of the full range of current theoretical approaches with practical applications of each theory and critical commentary on selected chapters the current abundance of theoretical approaches has sometimes led to apparent conflicts that may stem more from terminological differences or from differing notions of what theories of prosody are meant to achieve than from actual conceptual disagreement this volume confronts this pervasive problem head on by having each chapter address a common set of questions on phonology meaning phonetics typology psychological status and transcription commentary is added as counterpoint to some chapters with responses by the chapter authors giving a taste of current debate in the field contributors amalia arvaniti jonathan barnes mara breen laura c dilley grzegorz dogil martine grice nina grønnum daniel hirst sun ah jun jelena krivokapić d robert ladd fang liu piet mertens bernd möbius gregor möhler oliver niebuhr francis nolan janet b pierrehumbert santitham prom on antje schweitzer stefanie shattuck hufnagel a e turk yi xu
